Planning

|	
	Possible Interactive elements:
	Doors of the ship
	Chests opening
	Cannons giving off puff of smoke

Left boat has supplies, Right boat has cannons, Hill is topped with defensive cannons and the beach is littered with boxes and barrels of gear, these are 2 ships working together to protect this island from an incoming fleet of enemy ships (not shown). There will be a cove behind the hill with a badly made raft for pirates that are trying to escape from the incoming conflict. The island is home to many seagulls which adds a spark of life to an otherwise empty island.

Inventory of assets and texture used

|	
Used to make the ocean	LowPoly Water | Particles/Effects | Unity Asset Store
Used to add nice lighting	Low Poly Shaders | VFX Shaders | Unity Asset Store
Use to make the main rocky formation on the island	Low Poly Cliff Pack | 3D Landscapes | Unity Asset Store
